2021 Product Catalog

Dear Customers,

We would like to take a moment and wish you all a Happy New Year! We endured 2020, and that in and of itself is something to celebrate!

Here at Superior Car Wash Supply, while we were creating our 2021 catalog, our team discussed the natural change in the market and the impact of COVID-19. However, as the new year begins and people return to their normal patterns of patronage and behavior, we are increasingly confident that business will resume and sales will increase in 2021. With those changes, our team at Superior Car Wash Supply remains diligent.

The team worked hard to create a 2021 catalog that reflects the best, most innovative and profitable products that will appeal to customers as the demands and trends change. We are including new items from our longstanding manufacturers, as well as items we continue to develop and manufacture from our very own Luxury Driver, Shift Tech, Scentique and Sani-Stix lines.

As we move into the new year, we encourage all customers to pursue the sale of additional retail products. As we reach our 30th anniversary, we will continue to support you in growing your profit, standing behind our product selection and merchandising abilities and work with you to succeed!

We wanted to share with you a brief history of our journey and the exciting changes we have in store. Superior Car Wash Supply began in 1991 in a tiny 1,500 square foot building looking to service the car wash industry with their lobby needs. Now fast forward 30 years, and we have acquired several competitors, moved three times to our current Southern California warehouse and opened a larger facility in Memphis. We now proudly service Full Serve, Flex Serve, Self-Serve and Express Car Washes throughout the country.

As the business continues to grow and our services adapt to meet your needs, our sons, Alex Student and Michael Klapova, along with our Vice President of Operations, Patrick Almalem, have taken over running the day-to-day operations of the company. We are extraordinarily confident in the work Alex, Michael, and Patrick do, and we will continue to be available at any time.

Most importantly, we wanted to take a moment to say thank you and send our sincerest appreciation to you all for your support. We look forward to many more years of continued success and business growth with you all!

Sincerely,

A handwritten signature in black ink that reads "Gene Student".

TERMS & CONDITIONS

RETURNS

- All returned products require a Return Good Authorization number (RGA). Contact our offices to obtain a RGA number.
- Products to be returned should be carefully packaged and include an itemized list. Please include your account name, account number, and complete address of your location. Credit will be issued after verification of merchandise is received.
- Merchandise returns are subject to a 20% restocking fee.
- All returns are for credit on account, no cash refunds will be issued.

PAYMENT TERMS

- New customer accounts are prepaid for their first order.
- Net 10 day terms on approved credit with completed and signed credit application.
- We gladly accept Visa, Master Card, and American Express with signed credit card authorization form.
- All accounts require a State Resale Certificate number to be on file.

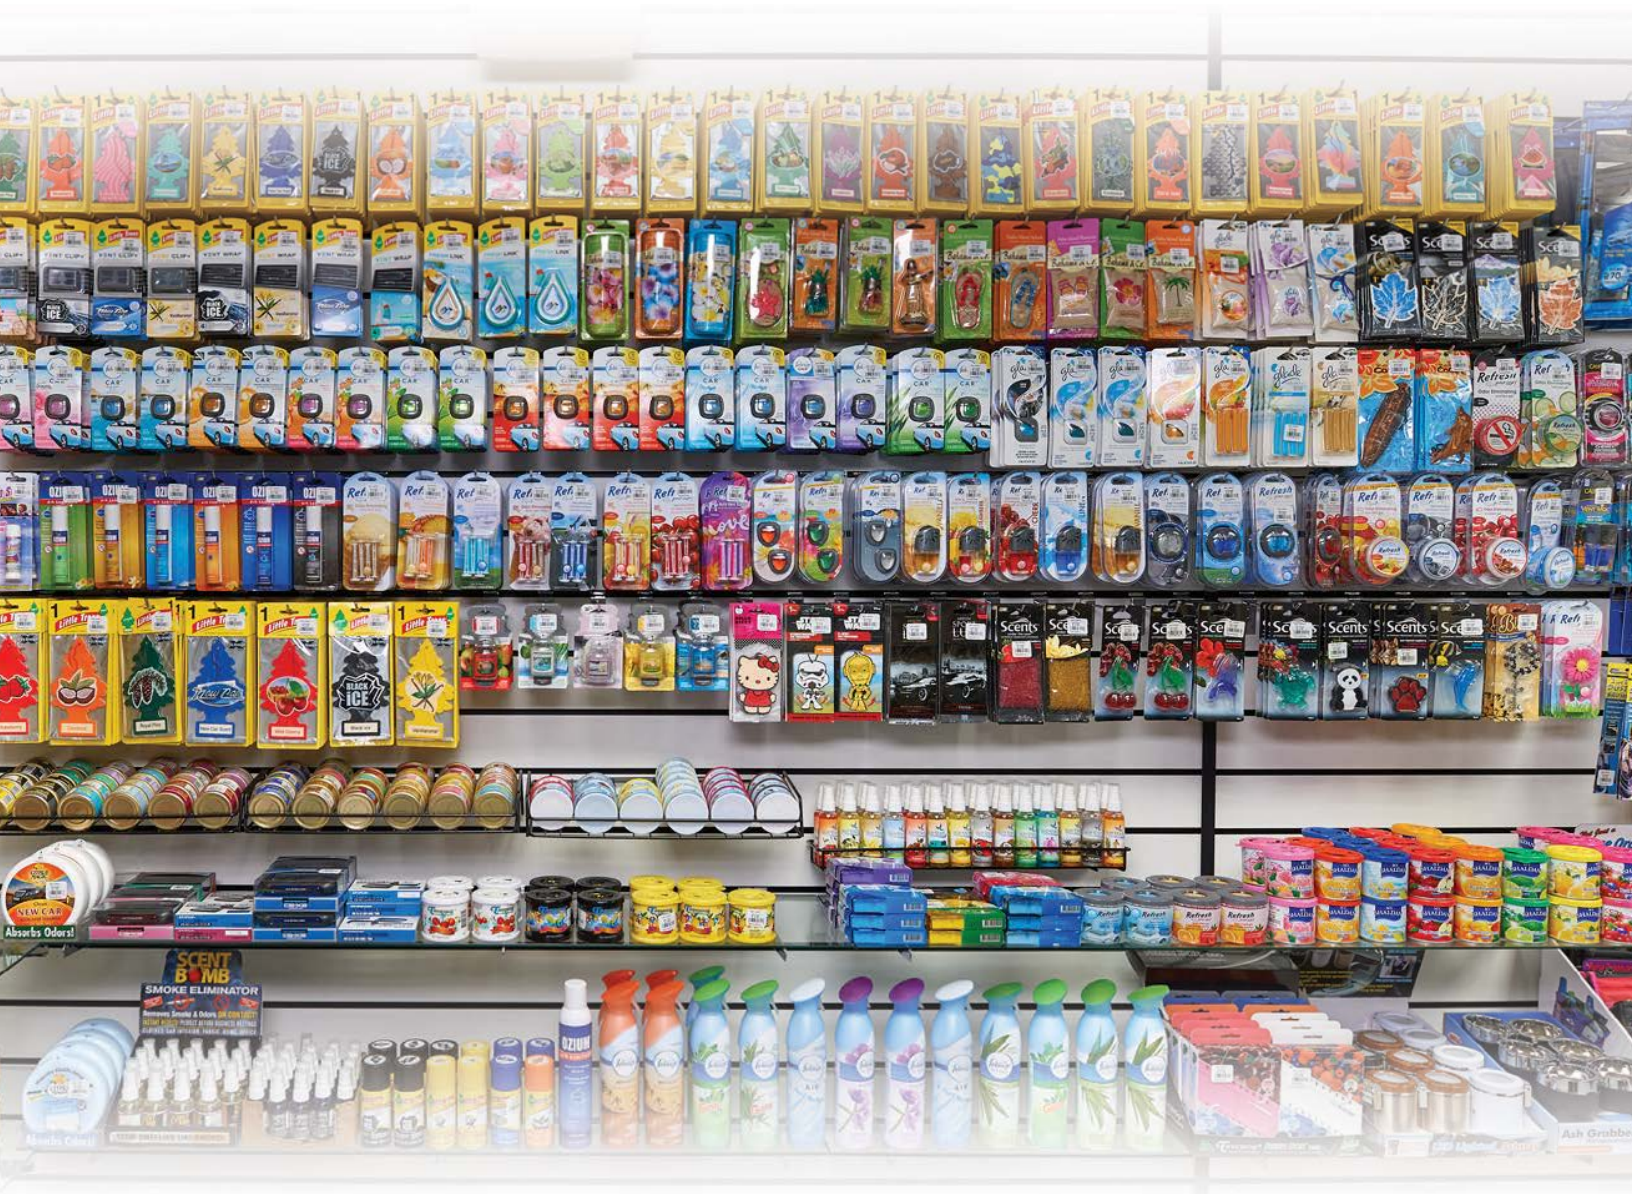

FREIGHT

- Retail items orders over \$300.00 are Freight prepaid.
- All remaining items in the catalog (Vending, Parts, Supply, Chemicals) are FOB.
- Minimum order of \$75.00.
- Superior Car Wash Supply ships with UPS or FedEx via ground transportation within the continental United States at shipper's discretion.
- Shortages, lost, or damaged goods must be reported within seven days.

PRICE

- Please consult our price list.
- Although we strive to maintain prices for the term of this catalog, we may be forced to adjust certain prices during the year. Orders will be invoiced at the prices prevailing at the date of shipment.

AIR FRESHENERS

Superior Auto Extras offers the largest variety of best-selling and high profit margin air fresheners in the car wash industry. We stock an assortment of styles and scents, including the best sellers from brands such as: Little Trees, Refresh Your Car, California Scents, Febreze, Glade, Yankee Candle, and Scentique. In addition to carrying high quality products, our sales representatives are armed with extensive data including product knowledge and sales statistics to ensure your show room is supplied with the best items for your region and demographic. Moreover, our reps are experienced in showroom merchandising to maximize profit!

PLANOGRAMS

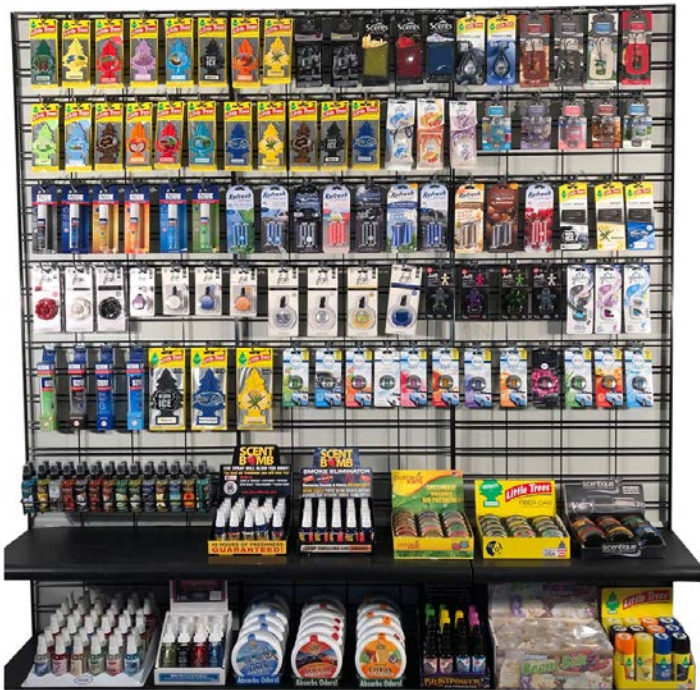

A person wearing a white long-sleeved shirt is shown from the chest down, leaning over a counter. They are using a grey card reader device. To the right, a black computer monitor is visible. The background is a blurred retail store with shelves of products.

Superior Auto Extras offers an extensive selection of pre-designed collections of best-selling and high profit margin air fresheners, steering wheel covers, floor mats and other auto-related accessories. These collections help to take out the guesswork and are offered in configurations ideal for different types of retail establishments.

ORGANIZERS

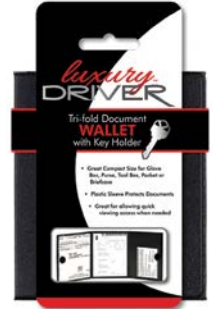

Superior Auto Extras has joined with Luxury Driver to provide the very best car organizers. These car organizational products are manufactured using quality materials and multifunctional designs. With the customer in mind, these car organizers have non-skid surfaces and large storage capacities, and most importantly they are easy to install and very affordable. These products are appealing to a variety of customers ranging from the traveling sales rep to the stay at home parent. If your customer has a desire to keep their car clean and organized, our Luxury Driver organizers are the way for them to go!

AUTO MAINTENANCE

No car wash show room would be complete without automotive maintenance items! At Superior, we carry various auto maintenance products such as protectant wipes, leather cleaners, and anti-bacterial wipes — all manufactured by popular national brands including: Lexol, Armor-All, WD-40, and Blue Magic. Providing your showroom with these products ensures that your retail department is equipped with anything your customers need to keep their car looking as good as it did the day they bought it!

CELL PHONE ACCESSORIES

Cell phone accessories is one of the most important categories in terms of impulse purchases. In today's digital world, most everyone has a cell phone and/or a tablet of some kind. Superior Auto Extras knows that in this connected world, having a dead battery is one of the worst things that can happen. We proudly offer Shift Tech as our primary brand of mobile electronic accessories. Our selection covers virtually all devices, no matter the shape or size. We distribute all types of cords, chargers, mobile mounts, ear phones and more. Most importantly, Shift Tech is of the highest quality. With our customers devices in mind, we won't risk selling you an item that will cause damage. We back this up with a complete list of Android and Apple Certifications with a manufacturer guarantee.

SHIFT TECH

Premium cables, chargers and other accessories to keep drivers safely and effectively connected.

GENERAL MERCHANDISE

All car wash lobbies are best served to carry general merchandise items. The increased value to a car wash customer is noted by offering an array of general merchandise items. These items can include wallets, beanies, gloves, fast moving pet accessories, snacks, and sunglasses, just to name a few. These items are available to hang on the wall, put in a counter display, as well as be merchandised in various floor displays. This category's success is based on high profit dollars for the car wash, needs of the customer, and an ever-evolving selection of products. Don't miss out on having the best selection of general merchandise for your showroom.

SANI-STIX

SINGLE-USE HAND SANITIZER PACKETS

Convenient, on-the-go hand sanitizer gel packets kill 99% of germs and feature eucalyptus mint scent. Contains 71.5% ethyl alcohol. FDA Approved formula and manufacturer.

MICROFIBER AND TERRY TOWELS

Microfiber towels are great for washing, drying and waxing your ride. They gently remove dirt and grime by using thousands of microfibers to trap particles, preventing scratches to your ride. For drying, they absorb water 3x faster than cotton towels and retain over 7x their weight in water. For polishing, their revolutionary weave combines friction, static electricity and capillary effect to lift, hold and remove wax, glaze, polish and other surface residues with ease.

VACUUM HOSES

Superior Hoses have smooth interiors to insure efficient air flow. Our carefully designed exterior ridge creates the lightest and most flexible hose available on the market. The likelihood of kink or crush is simply eliminated with these benefits. These hoses are ideal for wet/dry vacuums in car wash, commercial, and industrial applications.

CHEMICAL INJECTORS

The CHEM-FLEX™ Injector is an innovative new product whose components are manufactured utilizing Kynar®, stainless steel, Hastelloy® and a proprietary O-Ring material to create the most chemical-resistant injector on the market. CHEM-FLEX injectors are designed to inject fluids or air into conveying liquid under pressure. The water being pushed through the injector creates a vacuum and the chemical or air is inducted into the water stream.

TIPS KIT

Metering tips are used to control the amount of chemical being drawn into the water stream. Metering tips are placed in the plastic tubing containing the chemicals and water flow. Each tip color allows the chemical to flow at a specific rate. The dilution ratio produced by the tips is measured by the water volume or GPM and pressure or PSI flowing through the plastic tube

HYDROMINDERS

When the solution level in a reservoir drops, the float activates a nonelectric, magnetic valve. Flow of water through the valve and to the proportioner siphons the liquid concentrate, automatically maintaining the level of solution. No electrical connections or special plumbing. All models are installed using standard plumbing fixtures. Engineered for maximum life and corrosion resistance. Stainless steel, nickel plated brass, glass filled nylon and molded polypropylene are used for durability and serviceability.

CAT PUMPS

Plunger: Plunger Pumps are triplex [three plunger rods] positive displacement, reciprocating, plunger pump, constructed of a forged brass manifold, 304SS valve assemblies, solid ceramic plungers and standard NBR [Buna-N] seals and O-Rings. Cat Pumps premier car wash pumps.

Piston: This is a triplex [three piston rods] positive displacement, reciprocating, piston pump, constructed with brass manifolds, 304SS valve assemblies, chrome-plated 304SS cylinders and sleeves and standard NBR [Buna-N] seals and O-Rings. It s low RPM is designed for belt drive. The Uniflow design features a mechanically actuated inlet valve providing a continuous forward fluid flow and strong suction.

Crankcase Oil ISO 68 Special Formula

Premium Grade. Cat Pumps custom blend crankcase oil is exclusively designed, tested and proven to maximize the life of your Cat Pump. This special formulated premium-grade, petroleum-based, ISO68 hydraulic oil contains the most advanced additive package to protect against wear, oxidation, rust and corrosion.

HYPRO PUMPS

PowerLine Plus 2000 plunger pumps are designed for pumping water, soap, detergent, and other nonflammable liquids that are compatible with pump component materials. Construction features include an oil-bath crankcase, a forged brass head, polished ceramic plungers and stainless steel unitized valves, (high-temperature, preloaded cup seals). Car wash pumps include high performance, low pressure seals for superior reliability in high vacuum applications. Heavy-duty, high pressure seals and back-up washers are included in all car wash pumps to guard against corrosion and continuous duty fatigue.

GENERAL PUMPS

The high-temperature pumps of the HT series have been designed for use in applications where the water must be pre-heated, such as in carwash, food, and pharmaceutical industries. Maximum temperature of the water through the pump is 185°F (85°C).

General Pump Industrial Oil is a premium multipurpose lubricant formulated to protect against rust and oxidation. It offers long service life and prevents sludge and varnish formation - even at high temperatures. General Pump Industrial Oil possesses a high natural viscosity index. This means more constant operating characteristics over a wide temperature range.

SPRAY GUNS

Black Heavy duty American-made shut-off gun with rear load design. An ergonomic handle and trigger design that allow the user to operate the gun in an easy manner. With the unique orientation of the discharge tube, the gun allows the user to work for long periods of time. The safety lock prevents accidental opening of the valve. Designed with a stainless steel control bolt, stainless steel cam, stainless steel seat and stainless steel ball, the gun features machined brass inlet fitting, and plated steel inlet and discharge tube. With a 4:1 burst ratio and six month warranty, this shut-off gun features the most durable design (in its class) in its industry.

You'll find a GunJet® spray gun ideally suited to your cleaning and rinsing operation. Choose from a wide range of clean-up and washdown guns for high-, medium- and low-pressure operation.

Dozens of compatible spray tips, materials and accessories are also available. Plus, a full line of extensions, inlet/outlet adapters, swivel connectors, and strainers ensure you'll be able to customize one of our spray guns to your exact requirements. Specially-designed handles improve control and reduce operator fatigue. Smooth-pull triggers enable accurate and consistent flow control. Textured grips minimize the chance for slippage and accidents. Leak-free operation.

SPRAYING SYSTEMS

The Spraying Systems Trigger Jet Wand is made of polypropylene for excellent corrosion resistance. 150 max PSI.

The adjustable cone jet spray tip comes with a Viton orifice insert and is used with the 22650 Trigger Jet Spray Gun. The tip has an easy finger-tip control to adjust spray pattern, capacity, spray angle, and coverage.

Spraying Systems Wash Jet spray tip with vane provides high-impact sprays that are ideal for washing applications with high pressure. The construction of stainless steel offers long service life. As the liquid flows through the round orifice, it forms into a spray pattern of a flat, even edge, type of fan. The distribution at pressures over 300 PSI remains even throughout.

HOSE REEL

COXREELS® CM Series "Caddy Mount" hand crank hose reel offers lightweight, compact portability for long lengths of hose. Eliminate the task of manually coiling and uncoiling hose and easily transport it to the job site on wheels. High pressure applications are no problem with a 4,000 PSI rating. Also, a 4' inlet hose with 3/4" female fitting and male garden adapter is available with this series for use with garden hose. This Pure Flow hose reel comes standard equipped with stainless steel air/fluid paths and stainless steel swivels with non-toxic, food quality grease, ensuring clean, non-contaminated, safe and reliable transfer of breathing air, potable water or other clean fluids.

PRESSURE ACTUATED UNLOADER

This is a pressure-actuated unloader designed for any pump that fits within the flow and pressure range of the unloader. The unloader regulates the flow in the system and maintains system pressure via an adjustable nut that controls the amount of tension on a pressure spring. When no flow is going out the outlet port, all flow is diverted to the bypass port at virtually no pressure. The unloader is capable of handling one or more shut-off guns and should be run with no bypass (if the full flow from the pump is going through the unloader). It actuates at around 10% above the system pressure.

P857064
Giant Stainless Steel Pressure Actuated Unloader With Red Spring - 2400 Psi
1 Piece \$88.33

PRESSURE REGULATING VALVE

Designed for use with any positive displacement pump. Hydra-Cell C Series pressure regulating valves bypass system fluid to prevent excess system pressure. They can also be used as pressure relief valves. C Series Hydra-Cell Valves bypass system fluid to prevent excess system pressure. When a system discharge is completely closed – such as a closed spray gun, closed valve or plugged nozzle – the Hydra-Cell Valve bypasses the total system fluid flow. They also balance system pressure for multiple-gun operations. The Hydra-Cell Valve design is simple: a tapered plunger with a valve seat.

Wanner Pumps Hydra-Cell Model C22ac Bypass Pressure Regulating Valve 3/4"
1 Piece \$212.52

HOSE FITTINGS

The 43 Series of hydraulic hose fittings from Parker Hannifin is renowned for its ease of assembly, wide selection of shape and end formations, hose compatibility, and extensive use across markets. This cost-effective line of permanent crimp-style hydraulic fittings is designed for use with Parkcrimp crimpers to deliver "bite-the-wire" sealing and holding power. When used with Parker's No-Skive hoses, 43 Series fittings can be assembled without removing the outer hose cover, eliminating premature hose failure caused by skiving too long or too short. 43 Series fittings feature one-piece construction with chromium-6-free plating, and are compatible with petroleum-based hydraulic fluids and lubricating oils and with phosphate-ester-based hydraulic fluids.

FLOW SWITCH

Used for adjusting the maximum working pressure and safe guarding the high pressure water pipes. Ideal for steam combination applications. Low pressure limit eliminates need for additional metering devices. Working components constructed of high-grade stainless steel. PTFE and Viton seals for maximum heat and chemical resistance. Straight flow through design minimizes pressure loss through valve. Adjustable valve allows limit setting on both maximum and minimum pressures. Internal bypass valve can be easily accessed and repaired without removing the unloader from unit.

The General Pump flow switch is designed to operate in response to a low volume, low pressure flow and still allow for a high pump output flow. The system will provide reliable switching with as little as .75 GPM flow and 18 PSI from the city water supply and will also allow pump output flow up to 18.7 GPM at 4,000 PSI with negligible pressure drop through the valve. General Pump flow switches provide durable, reliable on/off switching for systems that require start/stop capability.

FOOT VALVE

Viton foot valve commonly used with harsh chemicals such as whitewall cleaner, butyl and other alkali products. Step down design to fit 1/4", 3/8" and 1/2" tubing. HYDRO FOOT VALVES allow one-way flow of chemical concentrations. Prevents solutions from "back-flowing" into supply tubing. Constructed of corrosion-resistant plastic and rubber materials for longer life.

Polypropylene bodies with EPDM or Viton® diaphragms.

Polyethylene for chemical lines. Step-down barb design allows for use with 1/4", 3/8" or 1/2" tubing. Designed for one-way flow of product and positive seal against flow in the opposite direction.

CLACK VALVE

This glass filled Noryl1 (or equivalent) fully automatic control valve is designed as the primary control center to direct and regulate all cycles of a downflow regeneration water softener or filter. The time clock control valve can be set to perform downflow regeneration or simply backwash. The control valve is compatible with a variety of regenerants and resin cleaners. The control valve is capable of routing the flow of water in the necessary paths to regenerate or backwash water treatment systems. The injector regulates the flow of brine or other regenerants.

POLYPROPYLENE CHECK VALVE

The 685 Poppet Check Valve incorporates a thin elastomer disc supported by a poppet that seals on the seat. Pressure in the flow direction moves the seal off the seat at about 1/3 PSI before pressure builds enough to move the poppet away from the seat. Maximum operating pressure of 125 PSI covers a wide range of air and fluid applications. Compact design with a light cracking pressure, high flow rate, and a positive seal at very low back pressure or slight vacuum. An embedded O-Ring Poppet is supplied for cracking pressure applications 1/2 PSI and higher Hastelloy® is a superior chemically resistant spring material.

A thin elastomer disc with a poppet sealing on the seat supports the SMC 685 series Poppet Check Valve. Pressure on the direction of flow moves the seal off the seat at about 1/3 PSI before pressure builds up enough to move the poppet away from the seat maximum. Operating pressure of 125 PSI covers a wide range of applications for air and fluid.

HYPRO NOZZLE CHECK VALVE

Designed to deliver the highest flow rates across the spraying pressure range. Unique DCV (diaphragm check valve) design reduces restrictions in the flow path, enabling 2.6 GPM (9.8 lpm) with a 5 PSI (0.34 bar) pressure drop through the nozzle. Supports faster field speeds with the same coverage and supports. Direct fertilizer application through the nozzle body DCV flow path. Turret-indexing design provides improved consistency and reliability throughout the life of the nozzle body – eliminating free spinning and seizing problems seen on competitive nozzle bodies. Bayonet style attachment allows for automatic spray alignment using flat fan spray nozzles. Compact design makes mounting easier with less potential interference with the spray boom structure.

DEMA SOLENOID VALVE

Diaphragm solenoid valves are available for 3/8-3/4" pipes, have orifices from 9/16-3/4," are constructed of brass or stainless steel, and have stainless steel seats. When energized, the plunger is pulled to the top plug, thus opening the small "pilot port" in the center of the diaphragm plate. This releases the pressure on top of the diaphragm allowing incoming pressure to lift it off the large center port. When de-energized, the solenoid plunger is pushed from the top plug by the kick-off spring and closes the pilot port. Fluid passes through the diaphragm bleed hole until pressure is equalized on both sides of the diaphragm to shut off the large port.

REGULATING VALVE

Bypasses excess liquid. Adjustable to maintain control of line pressure at any pressure within the valve's operating range. Selected pressure setting firmly held in place by locknut. Extra large valve passages to handle large flows. Features: diaphragm design pressure relief valve, aluminum housing with nylon inlet body. Fairprene® diaphragm seals off all working parts from contact with liquid and provides responsive, chatter-free operation, and additional port for pressure gauge installation.

AUTO ALERT FLOOR SWITCH

Auto Alert provides automatic vehicle detection without frequent maintenance worries. Auto Alert is an extremely effective, yet uncomplicated, economical vehicle detection device, perfect for any drive through oriented business, parking system or as an industrial door control. The vehicle simply passes over the molded weather-resistant vinyl detector and the system is activated. Auto Alert is easily wired to lights, horn, bells, or any signaling device. For industrial use, the Auto Alert can provide an efficient method of traffic management. Located strategically around the plant, the detectors can be wired to open and close doors, activate warning signals, or actuate machinery. The car wash industry finds the Auto Alert ideal for turning equipment on and off without touching cars. The Recora Auto Alert is rugged enough to work under multi-ton trucks, yet sensitive enough to react to the smallest, lightest cars. The Auto Alert is safer faster and easier to move to any spot in the wash tunnel or on the apron for exact timing control.

REGULATORS

The valve regulates the maximum pressure of the system by varying the flow discharged by the bypass. This product is intended to be incorporated on a finished machine and used with clean fresh water.

Piggybacks are compact and most effective when space is a constraint . Piggybacks can be ordered with different filter elements and can be modified with different springs, depending on the filtration and air regulating requirements.

Air line regulators provide controlled, consistent air pressure as required for specific pneumatic equipment connected to the air system.

GAS FIRED TUBE HEATER

Doorjet heaters stop the chills and wasted energy that occur when outside bay doors are opened in car washes, industrial plants, and distribution centers. The DOORJET's heat surge tempers the in-rushing cold air, keeping employees working in the area comfortable and saving energy dollars. Fully automatic operation. Solaronics DOORJETs operate via a trip switch that starts the fan and burner automatically as the door is raised. A "jet" of heated air is directed toward the door instantly. When the door closes, the fan and burner turn off immediately. Easy installation for all door types.

P857164
Velocity Reverse Osmosis 2200 Gpd System
 1 Piece \$6,347.40

Capable of producing 2,200 gallons of filtered water a day, this product comes fully equipped, and is specially designed for low-energy consumption. This product is popular for its low maintenance, high performance and high flow, as well as its space-save design. It is great for high pressure situations.

P857163
Velocity Reverse Osmosis 1200 Gpd System
 1 Piece \$4,607.70

The ProSeries 1200 GPD produces around 1200 gallons a day of pure filtered water. This light commercial reverse osmosis system is designed to provide you with a very cost effective commercial RO system. It's simple to install, easy to use, and an economical commercial water filtering option.

P857165
Velocity Reverse Osmosis 4400 Gpd System
 1 Piece \$6,744.80

The ProSeries 4400 GPD produces around 4400 gallons a day of pure filtered water. This light commercial reverse osmosis system is designed to provide you with a very cost effective commercial RO system. It's simple to install, easy to use, and an economical commercial water filtering option.

P857166
Velocity Reverse Osmosis 6600 Gpd System
 1 Piece \$7,607.10

The ProSeries 6600 GPD produces around 6600 gallons a day of pure filtered water. This light commercial reverse osmosis system is designed to provide you with a very cost effective commercial RO system. It's simple to install, easy to use, and an economical commercial water filtering option.

Threaded Conveyer Chain - 10'
1 Piece \$99.50

Sprockets are rotating parts with teeth that are used in conjunction with a chain and, almost always, at least one other sprocket to transmit torque. Sprockets and chain can be used to change the speed, torque, or original direction of a motor. In order for sprockets and chain to be compatible with each other they must both have the same thickness and pitch. In order for the sprockets and chain to work effectively, all of the sprockets should be on parallel shafts with their corresponding teeth on the same plane
